***Election/Restrictions***

Applicant's election without traverse of the species 1 in the reply filed on 4/20/05 is acknowledged.

Claims 13 and 21 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species.

The elected species including claims 1-12, 14-20 and 22-27 is further restricted below:

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-12, 14-20, 22 and 26-27, drawn to a deformable device, classified in class 359, subclass 224.
- II. Claims 23-25, drawn to a method, classified in class 250, subclass 234.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed can be practiced by another materially different apparatus such as adjusting a position of a lens system for correcting wavefront aberrations.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and the

fields of search are not coextensive, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Phan whose telephone number is (571) 272-2317. The examiner can normally be reached on Monday-Friday.
